

To the Baycliff community,

Thank you for your support for the Mitchell-Kash family - because of our efforts, they had next day replacements of clothing, shoes and toiletries and due to the generosity of our neighborhoods and extended networks, we have raised over \$15k in donations, lifting a major financial burden off the family as they navigate this loss.

While they figure out their housing situation, we will pause on collecting more physical donations and instead ask that those with extra furniture, household items and kitchen supplies - appliances, pots and pans, dishes, etc. - sign up via [the google sheet](#). This will let us know where items are when they are ready for them!

They are still in search of their cat, Trixie, with black and white markings. We believe she has been spotted in the neighborhood, so if you have any information, please share.

We will continue to keep the [donation page](#) live over the next few weeks.

On a personal note: as a newer neighbor, we feel even more strongly that we choose the right community for our family. It has been an incredible demonstration of the caring people that live "next door". We are proud to call Baycliff home.

Thank you,
Amanda Williams
